

FOOD AND NUTRITION PROCEDURES

Miami-Dade County Public Schools

B1

Subject: **CHILD NUTRITION PROGRAM**

PURPOSE

The purpose of these guidelines is to provide information on the Child Nutrition Program.

GUIDELINES

Child Nutrition Program

The primary purpose of the child nutrition program is to provide students with nutritious meals that will contribute to their overall good health. Promoting the development of good eating habits by encouraging students to make wise food choices and to develop positive attitudes toward healthy foods is an additional objective of the child nutrition program. The breakfast and lunch programs, in conjunction with the school environment, should provide experiences that reinforce health and nutrition education in the classroom.

School Food Service

School food service is defined as total food and beverages served to students while they are on school grounds. All income from school food service program sales of food and beverages is classified under school food service operating funds. School Board Policy [8510 – Wellness Policy](#) stipulates that the District will make nutritious foods available on campus during the school day to promote student and staff health. In addition, all food sales beginning one hour before the start of the school day and up to one hour after dismissal of the final class of the day must meet the *Rule on Food and Beverages Sold on Campus and in Vending Machines District Wide (Appendix A)*.

Service and Offerings

In accordance with the Florida Department of Agriculture and Consumer Services regulations, the District's School Board [Wellness Policy](#) and the Board's contractual agreement for the maximum amount of federal cash reimbursements, donated commodities and state reimbursement, all schools are to limit food and beverages available to students on the school campus before, during and one hour after school hours to:

- Reimbursable Breakfast
- Reimbursable Lunch
- Individually - priced items that meet the nutrition standards of the United States Department of Agriculture
- Reimbursable Snack
- Reimbursable After School Meal
