ONE DEGREE WILL AFFECT PRODUCT-KEEPING QUALITY!
Check the temperature of your juice refrigerator daily. Target temperature should be 40 degrees or less.

Temperature Control is Important.

Storage temperature of juice products has a direct relationship to shelf life. Average shelf life of juice at 40° F or less is 21 days. At higher temperatures, a rapid decrease in shelf life occurs. In addition to temperature, the age of product affects keeping quality. Proper code rotation in the refrigerator is very important.

Storage temperature of juice products has a direct relationship to keeping quality of shelf life.

This shows the relationship graphically. It should be posted where consumers can see it.

Besides temperature, age of product affects keeping quality. Proper rotation in the Juice case is very important. Proper rotation plus storage below cooling level in a display case equals good products for the consumer.

Instructions for Proper Handling of juices and drinks provided by M&B Products, Inc.

If product is delivered fresh:

1. Store below 40° F until consumed.
2. Product and/or box is Julian Coded. The M&B Julian date calendar should be followed for recommended shelf life date.

If product is delivered frozen:

1. Product is to be kept frozen until ready to thaw.
2. Thaw product at 40° F refrigeration for 48 to 72 hrs.
3. After thawing, keep refrigerated until served.
4. Juice products should be consumed within 14 days.
5. Frozen product should be thawed and consumed **within 18 months of packaging.**

NOTE: Florida law requires that juice be stored at 45° F, or lower, until sold to consumer. For best protection, store at 33° F to 40° F.

All Mr. J products are pasteurized. Juice products are packaged under continuous U.S.D.A. inspection in an on-site laboratory.

If the product is fresh and has never been frozen the "number" in each date square should not be served after that date. You will find the Julian date printed clearly on each box.

EXAMPLE: *209 means this juice should not be served after August 18, 2025. Each number is the Julian date the juice is packaged, and it has a 21-day shelf life if kept at 33° F to 40° F.

AUGUST 2025

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
