Required Kitchen Safety Information

The hood system is required to be ON and properly working before turning on and using any cooking equipment. If the hood system appears to not work properly DO NOT turn on any cooking equipment and report issue to the repair call center

Carbon Monoxide detectors were installed in all kitchens. Carbon Monoxide is ODORLESS & COLORLESS. If a carbon monoxide alarm sounds please adhere to the following steps:

- NEVER ignore the sound of the alarm
- QUICKLY turn off cooking & serving line equipment.
- IMMEDIATELY leave the kitchen and go outdoors.

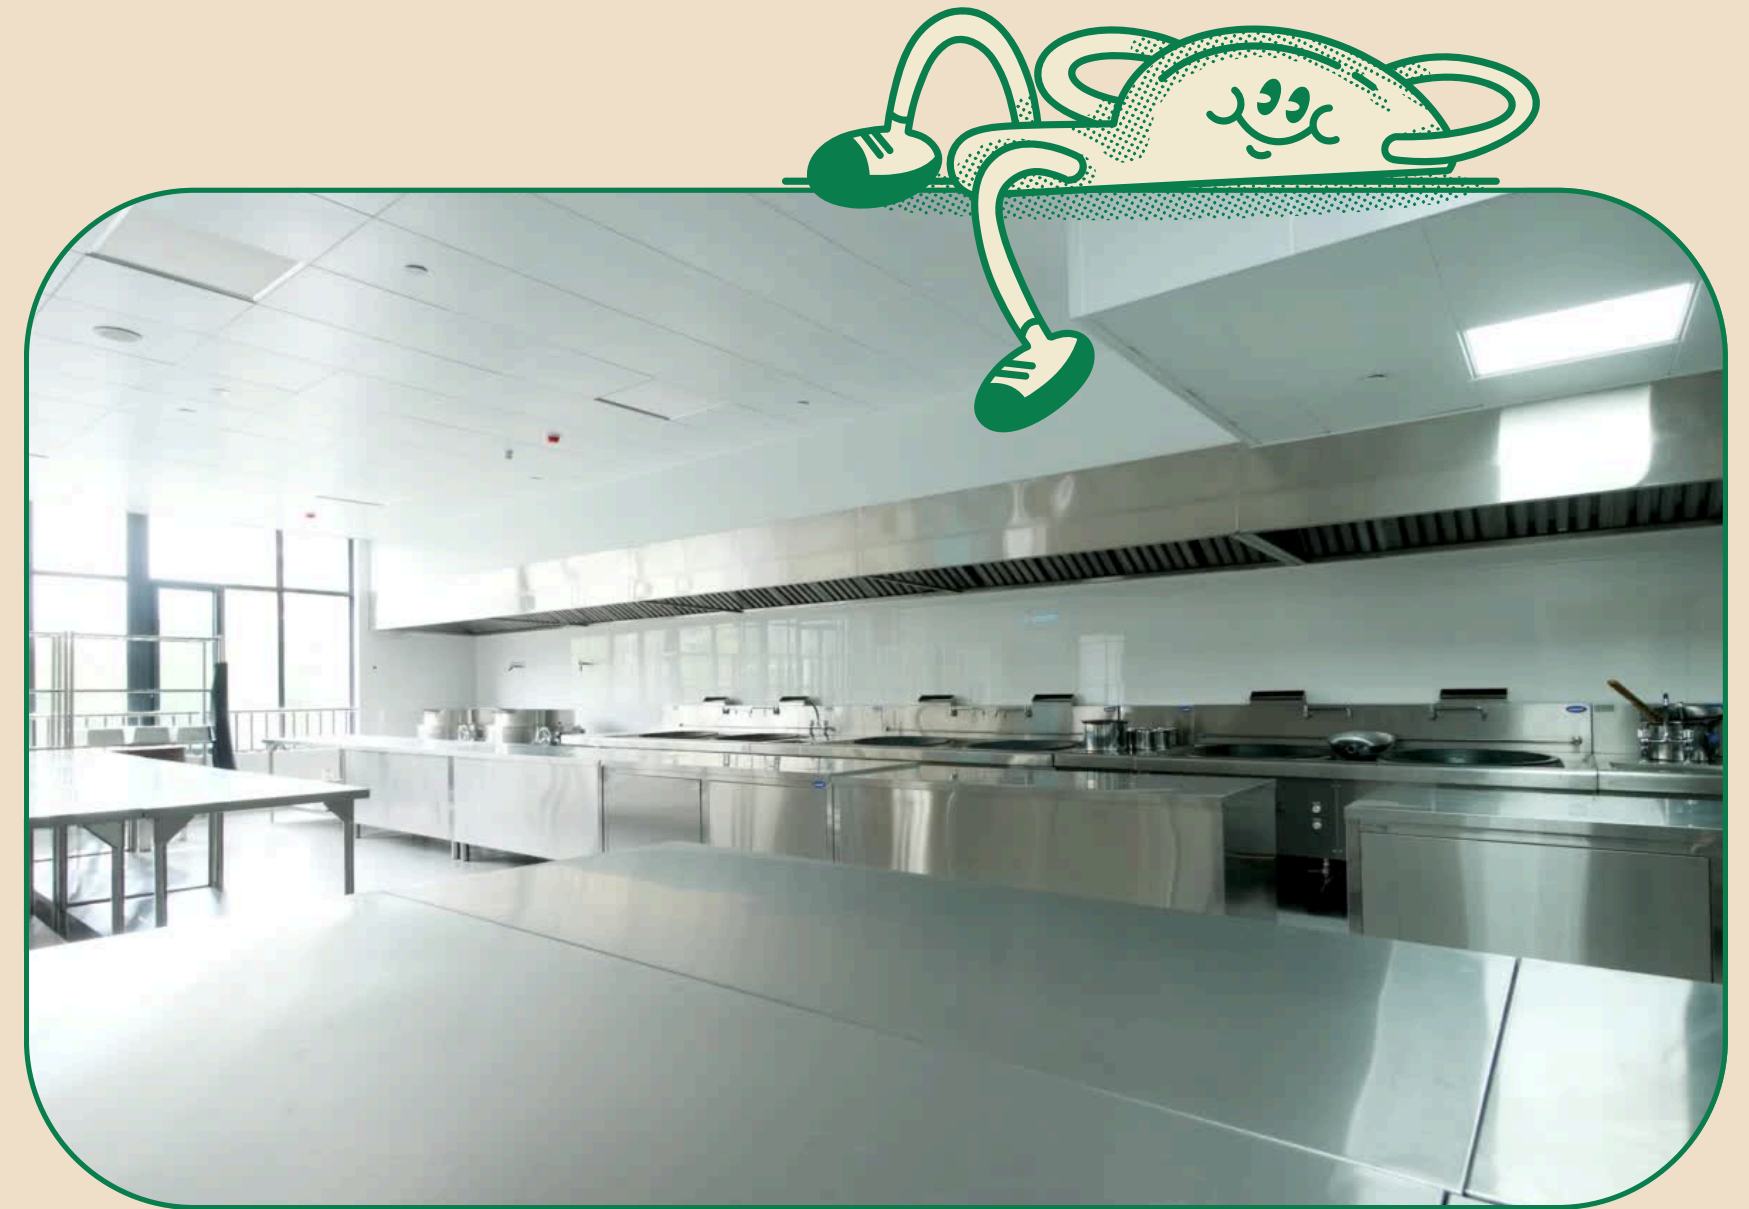

- INFORM your Principal to initiate appropriate actions. If admin is not available, call 911 to report the situation.
- NOTIFY your food service supervisor.
- DO NOT re-enter the premises until the all clear has been given

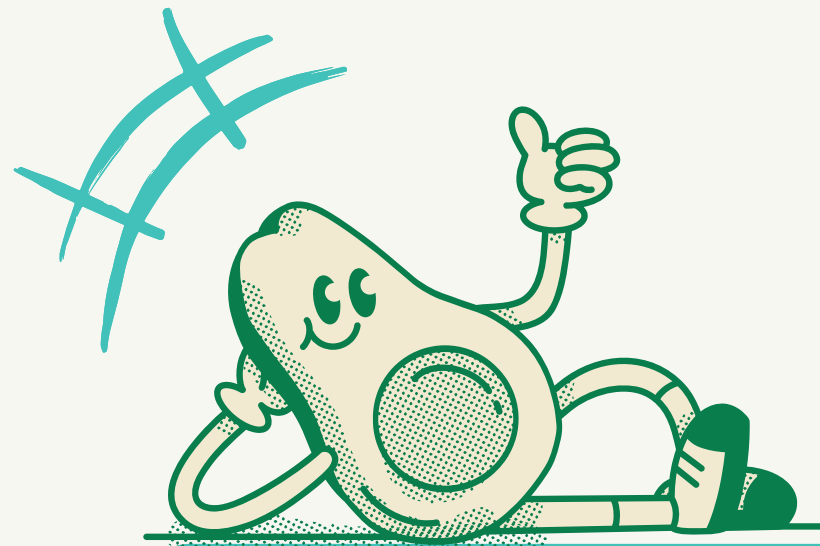

Important Reminders

Hood systems are scheduled for cleanings once per year; check your hood for service decal to see last service. If hood cleaning is required please call the repair call center to request a service call.

Health Department Permits will be mailed out to your school during the month of October 2024.

Your school Principal is responsible for having the kitchen gas tanks filled to operate your kitchen equipment. Food & Nutrition or Maintenance is NOT responsible for gas refills.

When calling in work orders please have the below information ready so we can better assist you:

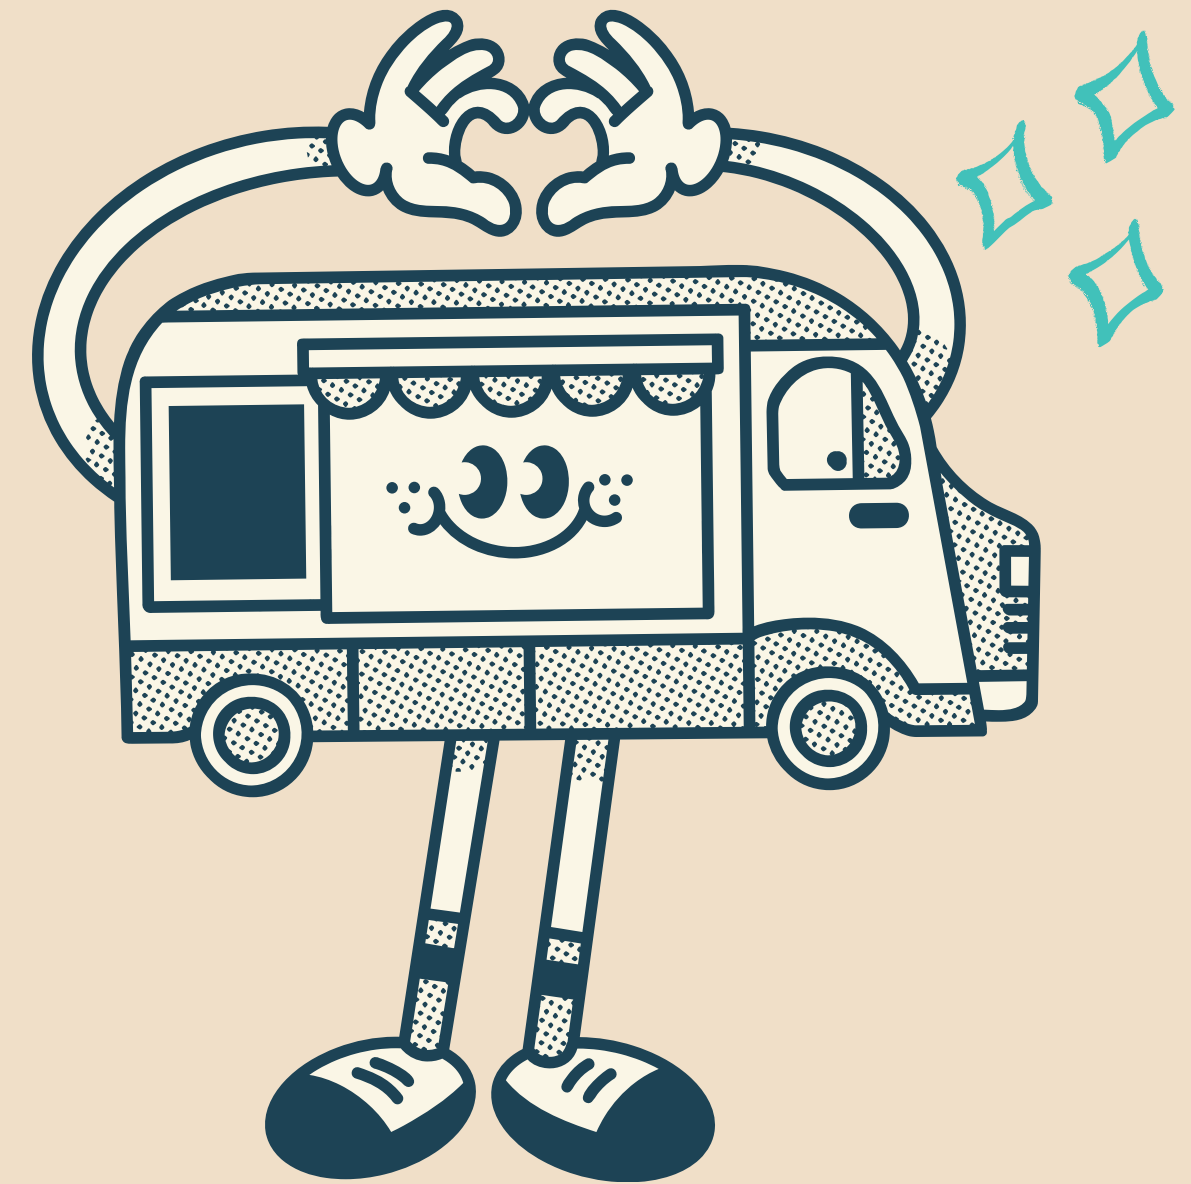

- Equipment Brand Name
- Equipment PC# and/or TAG#
- Cooking Equip – Must know if Gas or Electric
- Refrigeration Equip. – Refrigerator or Freezer

Work Order Request

- New equipment is requested and ordered through your Food Service Supervisor.
- Smallwares are ordered and approved through your food service supervisor.
- To transfer equipment to another school or have it removed, please have an outgoing control form filled and signed by school admin and yourself.
- Keep tight control over cleaning supply inventory, and follow SFSPac instructions.

WE APPRECIATE OUR DRIVERS

We would like to give a big thank you to our Food & Nutrition Drivers for always being up to the task to assist and help in anyway possible. Over the summer they have built and delivered **140** utility carts to various kitchens in our district!! Plus a grand total of **344** brand new pieces of equipment were purchased this past school year.
