Exceptions may be made for a period of 30 days for students currently in transition ([Project Up-Start Program](#)), under the Juvenile Justice System and children of Military families.

State of Florida School Entry Health Exam. ([DH-3040](#))

Parents/guardians of **ALL** students are required to present evidence of a health examination performed within twelve (12) months by a medical provider prior to initial entry into a Miami-Dade County Public School. The school health exam **MUST** include a **tuberculosis clinical screening**. If the screening indicates that a follow-up skin test is needed, the student may enroll **ONLY** with a medical provider’s statement that the student is free of communicable tuberculosis and can attend school.

Students transferring from within the state of Florida or within the county are **NOT** required to be re-examined. However, **ALL** students’ initially entering Miami-Dade County Public Schools health screening must include a tuberculosis clinical screening, and evidence of appropriate follow-up if necessary.

The school entry health exam should be completed on the *State of Florida School Entry Health Exam* form (DH-3040). When using this form, parents/guardians must complete page one (1). A health care provider may complete page two (2) or submit their own documentation of the medical information detailed on the form.
